Pam,

You have been approved for a new pair of safety boots. Attached you will find the names and locations of the vendors we use and the approved list of boots. The Region pays up to \$150 a pair. If you choose a more expensive boot you will need to pay the difference.

Please follow the instructions and provide me with a signed copy of the receipt so I can complete the transaction.

Thanks

Authorization to Purchase Safety Footwear

You have been approved for the purchase of safety boots for field work or safety shoes for laboratory work in the amount **up to \$150.00** once every 24 months. You may exceed this amount; however, if you do so, YOU are responsible for paying the additional cost. **These boots must be ANSI compliant with "toe" caps (may be steel, plastic or titanium alloy) and puncture resistant soles (Canadian CSA compliant).** You should have indicated your typical shoe size with width when you made your initial request to get a pair of boots. ANSI compliant safety shoes are allowed to be purchased and worn **ONLY** for laboratory staff that work exclusively in the laboratory areas. You need to visit one of these vendors within the next two weeks; if you do not complete your transaction within 30 days your authorization will be cancelled.

There are two vendors Region 7 uses who provide a federal government tax free discount. You **MUST** use one of these vendors; failing to use an approved vendor will make you responsible for the entire cost of your boots. If you have any issues with getting a proper fit please contact me indicating which vendor you visited so that I can work with them to meet your needs.
